## EDUCATION

---

**Bachelor of Computer Engineering**, SPPU

Expected 2026

Coursework: Web Development, Data Structure and Algorithms, Database Management System, Machine Learning.  
CGPA: 8.2

## SKILLS

---

**Technical Skills**

HTML, CSS, JavaScript, C++, Java, PHP, React.js, Node.js, SQL, MongoDB

**AI / Vibe Tools**

ChatGPT, Claude, Cursor, Figma AI, GitHub Copilot, Prompt Engineering, AI Workflows

**Proficient Tools**

GitHub, GitHub Actions, Bootstrap, Postman, Vercel, AWS

**No-Code Tools**

Shopify, Wordpress, Wix, Lovable

## PROJECTS

---

**MyHishob** - [live](#)

Tech Stack: AI-assisted development (Claude Code, Figma AI), JavaScript

- Built and deployed a financial tracking platform using AI-driven development workflows.
- Used Claude Code and Figma AI to rapidly design, prototype, and implement the product.
- Focused on fast execution, iterative improvements, and real-world usability using vibe coding approach.

**TrackParcel** - (Live Project)

Tech Stack: JavaScript, Scrapers, Automation

- Developed a parcel tracking system using web scraping and automation workflows.
- Integrated multiple tracking sources into a unified interface.
- Built using AI-assisted development to speed up scraping logic and system design.

**RoomieSync** - [live](#)

Tech Stack: HTML, CSS, JavaScript, Node.js, MongoDB

- Designed and developed a roommate matching platform with preference-based logic.
- Implemented user profiles and matching workflows with real-time interaction features.

**Online Customization Store** - [live](#)

Tech Stack: HTML, CSS, JavaScript, Node.js

- Developed a customizable product platform with dynamic previews and order flow handling.

## EXPERIENCE

---

**Web Developer Intern**, Aarna Systems

Jan 2026 – Present

Baner, Pune

- Working extensively on WordPress theme and plugin customization for client websites.
- Managing website content, layouts, and theme configurations to ensure consistency and performance.
- Actively involved in requirement analysis, client research, and understanding business use-cases before implementation.
- Leveraging AI tools to speed up development, debugging, and content workflows.

**Web Development Intern**, Priyam IT Services

May 2024 – Oct 2024

Pune, Maharashtra

- Assisted in building and improving client websites with focus on usability and performance.
- Used structured coding practices along with AI assistance for faster implementation.
- Collaborated on UI improvements and feature development across multiple projects.
- Performed testing, debugging, and deployment of real-world web solutions.

## **EXTRA-CURRICULAR ACTIVITIES**

---

- **Faction Coordinator, IODump Club:** Led events, promoted programming culture, and coordinated club operations.
- **Core Team Member, GDG Zeal:** Organized coding competitions, technical events, and developer community initiatives.
